

## Certificate of Attendance in Finance for Non Finance Managers

### *Course Information Sheet*

Finance for Non-financial Managers is an exciting and relevant 2-day short learning programme aimed at helping you better understand the way your company works with its finances. This easy-to-understand overview of finance in the workplace will empower you to interpret financial statements, analyse the numbers, and make better business decisions. Participants will also gain an insight into why, and how, important financial decisions are made.

### *Programme Benefits:*

On completion of the workshop, learners will be able to:

- You should be able to assess the financial performance and health of your firm.
- Enhance your decision-making skills by integrating financial management concepts into your thinking.
- Assess various software applications for managing finances.
- Control the flow of money through your department.
- Understand the budgeting process and forecasting techniques.

### *How we do it*

The processes are customized and include a combination of classroom and practical activities.

### *About the Programme*

- Duration: 2 Days
- (group onsite rates available on request)
- Training in house or on campus

### **Certification**

Upon successful completion of the programme, learners will receive A **Certificate of Attendance in Finance for Non Finance Managers.**
